

Placemat activity

During this activity you will get to know some other workshop participants and reflect on your expectations regarding this workshop. Here is your task:

1. Which questions would you like to have answered during this workshop? Individually write down as many as you can find in 5 minutes in your corner of the placemat.
2. Take 5 – 10 minutes to read through the questions of the other group members (simply turn your placemat clockwise until your own questions are in front of you again).
3. Identify those questions which all group members share or can agree on and write them down in the middle of your placemat.
4. Choose one group member who shortly introduces the group members and herself or himself (name and nationality) and presents the questions you have agreed on to the plenum.
