## 2. Public information

**Short text (about 200 words) for the promotion of the ECML event, the project and the envisaged publication with a focus on the benefits for target groups. This text should be provided in your national language(s) to be used for dissemination (on websites, for journals etc.).**

European Centre for Modern Languages organized workshop "Action Research Communities for Language Teachers" on 10- 11 November 2016 in Graz, Austria. Teachers and educators from more than thirty countries, gathered to share experiences from this field and contribute towards quality enhancement in the language classroom through the application of action research approaches.

At the beginning of the workshop activities of ECML were presented, as well as their website, which I believe you will find very useful and resourceful for your own teaching practice ([www.ecml.at](http://www.ecml.at)). Through the method of analytic discourse every workshop participant presented typical lesson/session, on the way in which we work with our students in order to gain new perceptions of the situation. ECML team presented examples of action researches implemented in practice, as well as techniques and tools necessary for action research planning and implementation. Participants formed smaller teams for planning mutual action researches in their own communities and presented drafts to whole group. Expect to hear more on the Intercultural competence action research done in cooperation with teachers from Denmark and Austria.

This two day workshop opened the new perspective on reflecting my own teaching practice desire to test innovations in the classroom.
