What is it?

PluriMobil is a teaching tool that offers activities and materials to support the plurilingual and intercultural learning of students for the phases before, during and after a mobility activity. This tool can be adapted to multiple mobility projects across all educational levels.

Who is it for?

- Teachers and teacher trainers
- International officers and other stakeholders

Keys for EOL

My double scenario

Future teachers can integrate more easily the PluriMobil approach if they have experienced it during their own education and training.

Combining language learning with cultural awareness and mobility: PluriMobil is a teaching tool that offers activities and materials to support the plurilingual and intercultural learning of students for the phases before, during and after a mobility activity.

Practical approach: a website containing PluriMobil lesson plans for primary, lower and upper secondary, vocational schools, as well as for teacher training.

Examples of how to use the benefits of mobility for language and intercultural learning.

PluriMobil's pedagogical tools aim to improve students' communicative and plurilingual skills, enhance their intercultural competence and expand their language awareness and language learning strategies.

Suggestion for EOL

- Importance of personal experience by the trainee teacher for transferring that knowledge to pupils at a later stage when working
- Importance of mobility: increasing awareness of the benefits and opportunities of learning languages in a different country
