Please highlight the ones which are required in the participants' profile of the event / *Merci de souligner celles requises dans le profil des participants à l'événement*

As a DaF didactician and the program manager for an MA study program (for teachers of GFL), I create and update curricula for various subjects as part of teacher training for teachers of GFL and train future teachers of GFL as well. My teaching portfolio includes initial teacher training for all areas of GFL teaching.

As an employee, country manager and project partner, I (with other employees) took part and will take part in several didactic and scientific projects within the framework of the EU and Slovenia. (SprichWort-Plattform, ImTeaM4EU, Traveler between wor(l)ds - finished Erasmus + projects; Dyslexia is a recently accepted Erasmus + project in which we (my colleague and I) are involved as project partners.

As President of the German Teachers' Association, I organize annual conferences and other training courses (of course in cooperation with other colleagues), inform association members and other interested parties about the latest news and publish our association magazine SCHAUREIN. For the 3rd and 4th year of secondary school (penultimate and last school year) we organize the national competition in GFL, both at school and national level.

Since 2020 I have also headed the specialist commission for the German vocational diploma, in which we are currently introducing listening comprehension as an additional skill to be tested, i.e. we are preparing everything necessary for the inclusion of the listening comprehension into the Slovenian "poklicna matura".

It will be possible for me to implement relevant findings into my teaching at the faculty, into in-service teacher training, present them also at conference on different levels and at other occasions.

I already deal with this field, so it is not really new to me, but certainly there will be more information that will be an additional value.
