FEEDBACK	
8. Given the fact this was an online event, what constructive feedback could you give to ensure future events of this type achieve their full potential?	
1	Despite the fact that we were online, the meeting was a fruitful exchange of ideas. Due to Covid experience from previous months we are used to working online.
2	Review presentations ahead of time with the presenters, so they have the settings up and running, etc. Maybe have a QR-code for participants that they can share with contact info including LinkedIn profile, e-mail, etc?
3	Although this was done very efficiently because I have been to live ECML events and meetings, I must admit face to face are better and time flies while sitting in front of a screen can be tiring after a certain point. Having said that, the PALIGUI team was very welcoming and friendly (great hosts!) and made us all feel like we knew each other.
4	Breakoutrooms and wonder.me were very good practices.
5	J'ai beaucoup aimé le format hybride. J'aimerais bien participé sur place, une prochaine fois, si c'est possible. Pour ce qui est des partages des vidéos et powerpoints, il serait peut-être pertinent que les organisateur.trice.s aient une copie à l'avance et puissent faire le partage, si la personne invitée a des problèmes techniques.
6	Perhaps more technical support to decrease technical problems.
7	Plus de place au plurilinguisme des participants; tenir compte des 'minorités' linguistiques dans le groupe est un exemple à donner pour la classe aussi un programme bilingue et sans doute plus détaillé.
8	You did an excellent job and stayed calm under all conditions.
9	Keep using different tools and methods to make people participate (like the team did this time). Maybe more time for discussions in smaller groups - they were interesting but time was rather short (above all on Wednesday).
10	The fact that the meeting was online enabled a turnout in participation that otherwise would probably have not been possible.
11	Il serait intéressant de pouvoir participer un peu plus activement aux projets. Peut-être en co-développant des tools ou en traduisant des documents déjà existants.
12	I think it was quite balanced between plenary inputs and discussions in break outs - but the breakout sessions could always be longer given the multitude of expertise of all the participants.

ADDITIONAL COMMENTS	
9. Please use the space below to give any additional comments you wish to make on of the event.	
1	I really appreciated being invited to this meeting. Thanks.
2	I really enjoyed using wonder.me. That was a first!
3	I think we need to make sure we have research data on the projects/resources and working at universities /schools (some of us) could definitely help in this. As for the event, I would like to see a future event organised in Graz (at least once a year).
4	Good luck with the project. You have a huge task ahead of you.
5	It should be followed by next steps, actions, and events so as to have continuity and build on links.
6	Superbe animation et transitions par l'équipe. Belle diversité des présentations de personnes dans divers contextes.
7	I might participate in the further steps of the project depending on the foci and on my time.
8	Loved it! My first time at an ECML event and it was fabulous. Very good to network and get insight into different contexts and practices.
9	Merci à toute l'équipe pour le contenu très intéressant et la possibilité de collaborer entre collègues internationaux.
10	Great thanks to the team for the inspiring event - many great ideas and food for thought! I hope to be able to stay in touch with a few people at least!
