Meeting report

In the three weeks after the event, please complete this report. It contains two sections:

1. **Reporting:** this is intended as a feedback on the event, on what was learnt, on how the event will affect your work and on how it will be disseminated. In addition to the ECML National Nominating Authority and the National Contact Point in your country the ECML will use the report¹ in the “Experts involved in ECML activities” section of each ECML member state website (please see <http://contactpoints.ecml.at>).

This section should be written in one of the project’s working languages.

2. **Public information:** this is intended as an information on the ECML project and its expected value for your country. The content should be of interest for a larger audience. The public information should be a short, promotional text of about 200 words.

This section should be written in (one of) your national language(s).

Diskurskompetenzen und bilingualer Sachfachunterricht: sprachen- und fächerübergreifende Kompetenzen für erfolgreiches Lernen

Ziel des von der Graz Gruppe im Rahmen des ECML-Projekts entwickelten Modells ist die Förderung vertieften Lernens. Vertieftes Lernen bedeutet hierbei die Internalisierung von Wissen. Damit dies gelingt, müssen die Parameter des Lernens stimmen. Der Sprache kommt hierbei eine zentrale Bedeutung zu, da vertieftes Lernen nur im Wechselspiel zwischen Konzeptualisierung und Kommunikation gelingen kann. Beide Aspekte sind unmittelbar interdependent, daher kann die Entwicklung fachlicher Kompetenzen nur unmittelbar mit der angemessenen Förderung fachsprachlicher Kompetenzen gelingen. Hierzu integriert das Grazer Modell verschiedene didaktische Ansätze des CLIL bzw. des bilingualen Unterrichtens.

Oft liegt der Schwerpunkt der Wahrnehmung bilingualen Unterrichts auf der zusätzlichen und vertieften Förderung fremdsprachiger Kompetenzen, das Grazer Modell setzt den Schwerpunkt auf die vertiefte Förderung fachliche Kompetenzen durch didaktische Prinzipien des CLIL bzw. des bilingualen Unterrichtens. Hierbei steht die Förderung fachspezifische Diskurskompetenzen im Vordergrund, die durch eine Operationalisierung im Spiralcurriculum systematisch gefördert werden können. Unter diesen Gesichtspunkten bietet das Grazer Modell neben Anregungen zur konkreten Unterrichtsgestaltung um vertieftes Lernen effektiver zu fördern auch Ansätze zur sprachsensiblen Weiterentwicklung von Unterrichtsmaterialien.
