PNF - Burning issues (S)

- ✚ **funding & focusing**
- ✚ increasingly **learners unwilling to invest time** to learn a language
- ✚ impact of **technology**

- ✚ **renewal**: of methodologies, techniques, teacher competencies, ...
- ✚ need to **update CEFR**
- ✚ need for **research & dissemination** of results of research

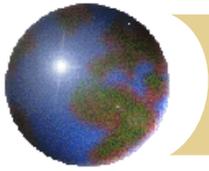

PNF – Possible Action Points

- ❖ **ECML - Authoritative and independent source of communicating good practice to stakeholders**
 - ❖ **learners less willing to invest time** in learning
 - ❖ **renewal**: of methodologies, techniques, competencies
 - ❖ **research & dissemination** of results of research

PNF – Reflection §

- ⊕ best practice ***is*** important (for we must be able to learn)
- ⊕ but = **past practice**
- ⊕ **future = innovation** (but innovation needs monitoring, measuring & evaluating). Innovations:
- ⊕ ... do not, and should not, *necessarily* equate with technology but should equate with **science** (= hard data), **knowledge** through experience, learning, ...
- ⊕ ... can be **new**, or equally can **renew / revisit**
- ⊕ ... not just breaking new ground but could be **new solutions to old problems (reviewing, reflecting & revisiting)**

PNF – Reflection §

*"... the greatest explorers are not those who discover new countries but **those who see things with new eyes ...**"*
