European Language Portfolio for the Blind and Visually Impaired Accredited model No 108.2010 Electronic ELP

Short description:

The electronic European Language Portfolio for the Blind and Visually Impaired (ELPBVI) is addressed to the visually impaired adult users (16+). The ELPBVI adopts principles outlined in the CEFR and at the same time considers the specific needs of target learners in terms of content and navigation. The ELPBVI can be used by totally blind learners with the help of screen readers transforming text to speech as well as by partially sighted users through font increasing facilities. The ELPBVI user can choose between five identical language versions: English, German, Greek, Bulgarian and Italian.
