to the National Nominating Authority and the National Contact Point

Meeting report

In the three weeks after the event, please complete this report. It contains two sections:

1. **Reporting:** this is intended as a feedback on the event, on what was learnt, on how the event will affect your work and on how it will be disseminated. In addition to the ECML National Nominating Authority and the National Contact Point in your country the ECML will use the report¹ in the “Experts involved in ECML activities” section of each ECML member state website (please see <http://contactpoints.ecml.at>).

This section should be written in one of the project’s working languages.

2. **Public information:** this is intended as an information on the ECML project and its expected value for your country. The content should be of interest for a larger audience. Thus it should link up to interesting publications, websites, events etc. which were discussed on the occasion of the workshop or which are relevant in your country. The public information should be a short, promotional text of about 200 words.

This section should be written in (one of) your national language(s).

The completed file should be sent to

within the given deadline.

1. Public information

Short text (about 200 words) for the promotion of the ECML event, the project and the envisaged publication with a focus on the benefits for target groups. This text should be provided in your national language(s) to be used for dissemination (on websites, for journals etc.).

Het LACS project heeft tot doel een netwerk te vormen tussen verenigingen van talendocenten en andere organisaties betrokken bij het taalonderwijs op regionaal en nationaal niveau (in Europa). Daarnaast is het een schakel tussen de bestaande en reeds uitgevoerde ECML-projecten en de docentenverenigingen, met als doel de ECML-projecten meer bekend te maken bij taaldocenten. Een derde doel is het ontwikkelen en vullen van een uitgebreide, doorzoekbare database op Europees/internationaal niveau om de samenwerking tussen docentenverenigingen in verschillende landen te vergemakkelijken. Zowel verenigingen als individuele docenten kunnen de database gebruiken om contacten en informatie te zoeken over de grens.

In het vorige LACS-project is overigens een handboek voor het oprichten van een docentenvereniging gepubliceerd, te vinden op de project-website.

Het project zal ook een vereenvoudigde beschrijving per afgesloten ecml-project opleveren, waardoor docenten sneller en beter kunnen beoordelen of het project interessant voor hen is, wat de bruikbare producten zijn van het project en hoe makkelijk het evt. aan te passen is aan de lokale situatie.

Er is een Facebook-, Twitter- en LinkedIn-account van het project die gebruikt worden om resultaten te verspreiden.
